VA, 22202

PROFESSIONAL SUMMARY

Product Manager with 7+ years leading AI-enabled, SaaS, fintech, and operational technology products from 0-to-1 through scale. Delivered a 20% reduction in NPAs, 25% increase in enterprise upsells, 50% cut in operational costs, and 40% NPS improvement by translating customer discovery and market research into data-driven roadmaps.

WORK EXPERIENCE

Product Manager 08/2025 - Present
MyEdMaster, LLC Arlington, VA

- Led 0-to-1 development of an AI-powered virtual fitness coaching platform across web and mobile, owning product strategy, roadmap, and MVP planning from concept through launch.
- Synthesized customer interviews, usability research, and competitive analysis into PRDs, user stories, and a prioritized roadmap, aligning AI/ML, engineering, design, and QA around a shared MVP scope.
- Shaped product requirements for computer vision-based movement analysis and adaptive coaching features, translating ML capabilities into a personalized workout and nutrition experience for end users.
- Defined product success metrics and built analytics dashboards using operational KPIs and product performance data, enabling data-driven prioritization, improved delivery transparency, and a 15% increase in team effectiveness.
- Directed strategy and delivery of an internal AI operations assistant (Slack, Jira, GA4, Amplitude integrations), cutting manual engineering reporting effort and improving delivery visibility for leadership.

AI/LLM Analyst – Part time Contract 09/2025 - 06/2026
Handshake AI Solutions, LLC Remote, USA

- Delivered human data generation across 8+ projects spanning Text, Image, Video, and Audio modalities (including finance-domain datasets) for leading AI companies, producing 50+ audio/video tasks and completing quality review on 200+ tasks to support RLHF/SFT-style evaluation pipelines.
- Annotated and reviewed AI-generated datasets at scale using structured evaluation guidelines, reducing bias, hallucinations, and security risks while improving model alignment with human values.

Product Manager 08/2020 - 07/2023
Savax Credit Solutions Gurugram, India

- Performed market research and competitive analysis to identify product enhancement opportunities, informing a B2B SaaS roadmap that reduced NPAs by 20% YoY through KPI-driven prioritization.
- Evaluated development and launch costs against revenue forecasts to recommend tiered pricing strategies, increasing enterprise upsells by 25% and reducing customer onboarding time by 30%.
- Conducted customer interviews and usability feedback sessions, synthesizing insights into product improvement reports that drove a 40% NPS improvement and 18% increase in sprint predictability.
- Researched industry best practices and internal governance requirements, drafted product requirements that met audit-ready standards, resulting in zero compliance issues during quarterly audits.

Business Analyst 05/2016 - 07/2020
PKA Constructions Delhi, India

- Led user research and requirements discovery across 50+ construction sites, including on-site interviews and observational studies, to identify market needs for a real-time workforce tracking SaaS solution, achieving 90% adoption.
- Designed and launched executive analytics dashboards tracking project KPIs, budget variance, and resource utilization, enabling data-driven operational and financial decision-making by senior leadership.
- Monitored product performance and provided detailed insights and reports on efficiency metrics, reducing idle labor costs by 50% through continuous feedback loops and data analysis.

PROJECTS

Rizo: BYOK AI Coding Assistant (VS Code Extension) | Independent Project | rizobot.com | github.com/chaitanyaaggarwal9/rizo-bot

- Designed and shipped an open-source VS Code extension letting developers bring their own OpenRouter API key to access 6 AI providers (Claude, Gemini, OpenAI, DeepSeek, Kimi, Free), with per-chat provider locking and adjustable reasoning effort.
- Defined UX for a diff-before-write approval flow and non-bypassable warnings on destructive commands, plus real-time cost tracking; published under Apache 2.0 and distributed via the VS Code Marketplace.

SKILLS

Product Management: Product Strategy, 0-to-1 Product Development, Roadmapping, Product Discovery, PRDs, User Stories, Acceptance Criteria, Backlog Prioritization, Release Planning, Go-to-Market Strategy
Customer and Market Research: Customer Interviews, Competitive Analysis, Market Research, Usability Testing, Product-Market Fit Validation
AI and Data Products: AI Product Strategy, LLM Evaluation, Prompt Engineering, AI Feature Design, Computer Vision Product Requirements, Model Quality Evaluation, REST APIs, SaaS Integrations
Analytics: Product Metrics, KPIs and OKRs, Funnel Analysis, A/B Testing, Revenue Forecasting, Cost Analysis, SQL, Power BI, Google Analytics 4
Delivery and Leadership: Agile, Scrum, Sprint Planning, Backlog Refinement, Cross-Functional Leadership, Stakeholder Management, Capacity Planning,
Tools: Jira, Confluence, Figma, Amplitude, GA4, Firebase, Power BI, Google Looker Studio, Microsoft Excel, Word, PowerPoint, Visio
